Resolution 201303

RESOLUTION AMENDING THE SNOW AND ICE CONTROL POLICY

WHEREAS, the Town Board ("Board") of Collegeville Township ("Town") is the road authority and provides maintenance for approximately 36 miles of road in the Town;

WHEREAS, the Board, as the road authority, provides for snow and ice control on the town roads it has designated to receive winter maintenance;

WHEREAS, on January 25, 2011 the Town Board adopted Resolution 201003 – Resolution Establishing a Snow and Ice Control Policy;

WHEREAS, the Snow and Ice Control Policy is amended by adding Section Ten (X) – Plowing of Roads Not Maintained by the Township;

NOW, THEREFORE, BE IT RESOLVED, the Board hereby adopts the amended snow and ice control policy for the Town:

I. POLICY CONSIDERATIONS

In developing this policy for how to best undertake snow and ice control activities in the Town, the Board has had to balance a number of factors including, but not limited to, the following: public safety; the amount of funds available for these activities; the number and availability of town personnel to engage in these activities; the safety of town personnel; the wish to maintain an efficient transportation system; enable the delivery of emergency services; avoid damage to Town property and personal property; and the cost effective allocation of resources.

II. WHEN SNOWPLOWING BEGINS

The Township will usually not dispatch the snowplows until after a snowfall has stopped. Exceptions to this will be made during extended periods of snowfall. The following factors have an effect on dispatching snowplow drivers:

- Immediate and anticipated weather conditions.
- Effectiveness of operations.
- Safety of employees.
- Risks of damaging equipment.

III. TOWN ROAD SNOWPLOWING PRIORITIES

In order to provide for the most effective snowplowing as possible given the Town's limited resources, "through" roads will be plowed first. In addition, the snowplow operators may alternate their starting points within the Township.

IV. HOW SNOW WILL BE PLOWED

Snow will be plowed in a manner as to minimize traffic obstructions. Snow will normally be plowed from the center of the road first. Then snow will be pushed from left to right until at least the main traveled portion of the road has been cleared. On narrow roads, the plowing operator may choose to plow snow from one side to the other. In the event of equipment failure, extreme snowfall, or other unanticipated events including the availability or need to rest snowplow crews, deviation from these standards may be appropriate at the discretion of the Township Supervisors.

Snow will be plowed as close as possible to mailboxes located in the road right-of-way. It shall be the responsibility of property owners to clear snow from around their mailboxes to enable mail delivery. Snowplowing unavoidably results in snow being deposited on driveways and approaches. Because the Town does not have the resources available to it to clear the ends of driveways and approaches, it is the responsibility of land owners to remove snow from their driveways and approaches.

V. SANDING

Sanding will be done at problem locations as directed by the Township Supervisors. Problem locations generally include hills, curves, and areas of the road that do not receive much sunlight. A salt/sand mixture will be used for the sanding process.

VI. SNOWPLOWING OF PRIVATE PROPERTY

The Town will not snowplow or sand private property except when requested to do so by law enforcement to provide access for emergency vehicles responding to an emergency. If private property is used with permission of the owner to turn around Town equipment or to store snow, the Town may snowplow the private property as needed to accommodate the Town's use of the land.

VII. DEPOSITING SNOW IN PUBLIC RIGHTS-OF-WAY

It is unlawful for anyone to deposit any snow or ice in a public road right-of-way or to otherwise obstruct a public road. Minn. Stat. §§ 160.27, subd. 5(a)(1); 169.42, subd. 1. Depositing snow or ice in a road also increases snowplowing costs, creates a potential public safety hazard, and could damage equipment.

VIII. OBJECTS WITHIN TOWN ROAD RIGHTS-OF-WAY

Public road rights-of-way are used for a variety of purposes that are outside of the direct control of the Town. While reasonable efforts will be made to avoid damaging private property, snow and ice control operations may result in damage to the property of others. Where private property damage does occur, it is the policy of the Town to handle damages in the following manner.

1. **Mailboxes**: Owners are responsible for erecting their own mailboxes in order to receive roadside mail delivery. Mailboxes must conform to the standards established by the Minnesota Department of Transportation. Mailboxes that do not conform to the established standards are considered a public nuisance and are prohibited by law. Minn. Stat. § 169.072. The mailbox owner assumes all risk of damage from snowplowing including damage from pushed or piled snow. The only exception is where the mailbox is damage through direct contact with snowplowing vehicles. If, in the opinion of the Township Supervisors, a mailbox was damaged through direct contact with snowplowing vehicles, the Town will repair, replace, or make other arrangements with the owner to correct the damage to the mailbox. Under no circumstances will the Town pay more than $50 to correct damage to a mailbox. Furthermore, the Town will not pay to repair or replace any mailbox that does not substantially comply with the standards established by the state, even if they are damaged by direct contact with snowplowing vehicles.
2. **Sod and Landscaping**: The Town assumes no responsibility for damages from snow or ice control operations to sod, trees, or other landscaping materials or vegetation.

3. **Lawn Sprinklers, Lighting, and Personal Property**: The Town assumes no responsibility for damage to aboveground or underground lawn sprinkling systems, exterior lighting systems, or other items of personal property located in a road right-of-way whether by direct or indirect contact with snow or ice control equipment.
4. **Utility Structures**: The Town will only be responsible for damage to utility pedestals, transformers, or other utility structures within the right-of-way that result from direct contact with snow and ice removal equipment provided the structure was marked with a minimum 5 foot identification marker. Town liability will be limited to the actual costs to repair the damages as documented by invoices submitted to the Town by the utility company.
5. **Clearing Snow Around Items Left in Road**: It is the responsibility of owners to keep the road rights-of-way clear of vehicles, trailers, trash cans, and other items of personal property in order to facilitate the proper snow and ice control operations. If an owner fails to keep the road clear of personal property, the owner becomes responsible for promptly clearing the snow left in the right-of-way around the item. If the Board determines personal property left in the road right-of-way possess an unreasonable risk to public safety, or significantly interferes with snowplowing operations, it will have the item removed from the right-of-way at the owner's expense.
6. **Damage by Contractors**: The Town shall not be responsible for any damage or injuries caused by independent contractors performing snow or ice control operations for the Town. Any claims of damage must be made directly to the contractor.

IX. COMPLAINTS AND REQUESTS FOR FURTHER SERVICES

Complaints and requests for further services regarding snow and ice control or damage should be directed to the Township Supervisors. The Township Board will review complaints, any requests for changes to this policy, or any other request that requires a Board decision.

X. PLOWING OF ROADS NOT MAINTAINED BY THE TOWNSHIP

It will be the discretion of the Town Board of Supervisors to determine if a road, which is not maintained by the Township, will be plowed by the Township. Refer to Exhibit A for Maintained and Not Maintained Roads. The following criteria will be used in determining which roads to plow, but is not limited to this set of criteria:

Road width
Trees and brush in road right-of-way
Through-road or dead end road
Turn-around capability

Only roads that have been under contract prior to January 1, 2012 will be eligible for Town plowing under contract.

XI. REVIEW OF POLICY

The Board will periodically review this policy, taking into consideration any changing conditions in the Town's circumstances, any complaints or comments received, and the experienced learned from undertaking snow and ice control procedures.

Adopted this 5 day of August, 2013.
